## **ALDIE FAMILY SUPPORT NIGHT**

**HELD THE 1<sup>ST</sup> & 3<sup>RD</sup> WEDNESDAY OF EVERY MONTH  
FROM 7:00 PM TO 8:30 PM**

This is a family support night for parents, sisters, brothers, aunts, uncles, grandparents, or anyone that knows someone affected by this disease.

You are not alone!

We are not professionals in this field, but we stand together to support one another. We are all in the storm together some in the beginning, some seeing the light of great hope and yes there is always hope!

This group is for you. Strength, Hope, and HEALING have been found in this setting. You will also meet and make great friends that have great compassion, care, and understanding. There is no judgement here only open hearts.

There are also a couple of great people at Aldie running a peer group for clients (they are clients themselves) so no counselors and no pressure. Just come and hang out! It is the same time and night as this family support group. What a great night.

We agree it takes the whole family to get healthy and recover together. We are all family at Aldie. We would love to welcome you to this group!
